

Plan to Succeed with Acterys' Enterprise-grade xP&A Platform

Seeking a Holistic, Data-Driven Foundation for Decision-Making?

Get tailored Extended Planning & Analysis (xP&A) solutions for any source available on the cloud and on-prem with Acterys xP&A Suite.

“With Acterys and Power BI we were able to implement a process that's built on our standard infrastructure, that was easy to roll out with a minimal learning curve and all the functionality required available out of the box. A quick execution with a lot of value.

Danny Bharat
VP Planning Analytics
ATD

Key Features

Fast

Quickest Time-to-Value

Get started in minutes with 1-click integration to any source or use pre-configured Apps for specific ERP/accounting systems.

Effective

Unified Planning & Reporting Platform

Get 80% lower TCO and dramatically reduce cycle times by combining capabilities of legacy silo tools onto a single platform.
